Experience

Web development Intern, *Kairiz Cyber Technologies*   06/2024 – 07/2024
                                                                     Lahore, Pakistan

I completed a range of front-end development tasks, including designing and coding a login page, an Amazon landing page, a personal portfolio, and a tribute page using HTML and CSS.

Projects

StyleFit – AI-Powered Fashion Assistant   03/2025 – present

Building a mobile app using **React Native**, **Django**, and the **Gemini API** to offer personalised outfit recommendations. Aggregates listings, enables smart search, and suggests styling based on user preferences.

Name Plate Detection and OCR System   03/2025 – present

Developing an OCR system using **Python**, **Opencv**, and **Tesseract OCR** to detect and extract text from vehicle name plates. Preprocesses images and localises text regions for smart identification.

GoFAST – Carpooling Platform   09/2024 – 11/2024

Built a full-stack ride-sharing web app with **Python (Flask)**, **JavaScript**, and **HTML/CSS**. Integrated **Google Maps API**, user authentication, and applied **SOLID principles** for scalability.

Payroll Management System   03/2023 – 04/2023

Designed a payroll system using **MSSQL**, **ASP.NET**, and **HTML/CSS**. Enabled attendance tracking, deductions, and payroll reports with **CRUD operations** and **data validation**.

Education

FAST NUCES, *BS in Computer Science*   2022 – 2026
                                                                    Lahore, Pakistan

Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Web Development, Artificial Intelligence, Software Testing

Pak-Turk Maarif International Schools and Colleges,   2008 – 2022

O Levels & A Levels – Cambridge International Examinations   Lahore, Pakistan

Mathematics, Physics, Computer Science

Skills

Python	C/C++
HTML/CSS	React Native
Django	SQL
Flask	Assembly 8086
